OIL & GAS COURSES CATALOG

A photograph of an offshore oil rig at night. The rig is illuminated with warm lights, and its reflection is visible on the dark water. The sky is a deep blue, suggesting twilight or night. The rig's structure is complex, with multiple towers and cranes.

We deliver solutions not just training courses.

We offer an extensive range of training seminars, courses and workshops for the Oil, Gas, Petrochemical and Energy Industries that include technical and specialized training, as well as Business and Management courses.

Our catalogue include courses such as:

- **Leadership & Strategic Thinking in the Oil, Gas & Petrochemicals Industry**
- **Strategic Management in Upstream Oil and Gas**
- **Advanced Oil & Gas Project Economics, Risk & Decision Analysis.**
- **HSE Risk Management in the Oil & Gas Industry**
- **Environmental Management Systems**
- **Essential Skills for Oil & Gas Managers and Supervisors.**
- **Primavera risk analysis training**
- **Managers and Supervisors**
- **Document Management for Oil and Gas Professionals**
- **Leadership and Communications**
- **Business and Project Management**
- **Competency Management**
- **Competency Assessment**
- **Introduction to Energy Management**

- 
- **Effective Contractor Management in Maintenance & Technical Projects**
 - **Global Procurement and Supply Chain**
 - **Management for the Oil & Gas Industry**
 - **Engineering Contracts**
 - **Strategic Thinking, Analysis and Planning**
 - **Workshop on Feasibility Studies**
 - **Effective Contractor Management in Maintenance & Technical Projects.**
 - **Water Flooding Management**
 - **Natural Gas Engineering**
 - **Crisis Management & Emergency Response**
 - **Problem Solving & Decision Making Skills for Engineers and Technical Professionals**
 - **Team Building.**
 - **Understanding and Negotiating International Oil and Gas Contracts.**
 - **Negotiation Skills for the Petroleum Industry**
 - **Strategic Thinking, Analysis and Planning**
 - **Workshop on Feasibility Studies.**
 - **Effective Contractor Management in Maintenance & Technical Projects.**
 - **Oil and Gas Financial Modeling - A Practical Approach**
 - **Budget Preparation, Allocation & Cost Control.**
 - **Project Cost Estimating and control**
 - **Overview of Petroleum Economics**
 - **Finance for Non-Financial Professionals in the Oil & Gas Industry**
 - **Finance for Non-Financial Professionals in the Oil & Gas Industry**
 - **Environmental impact assessment**
 - **Occupational Health & Safety**
 - **Safety in Oil & Gas Fields**

- 
- **Applied Environmental Management**
 - **Applied Health Safety Environment Management**
 - **Applied Safety**
 - **Fundamentals of Process Safety**
 - **Processing, Transportation and Distribution of Oil & Gas**
 - **Our Oil Markets, Trading & Shipping trainings**
 - **Shipping: General Features, Chartering Contracts & Operations**
 - **Competency Development for Supervisory Excellence in the Oil, Gas & Petrochemicals Industry**
 - **Oil and gas industry fundamentals**
 - **Corrosion Control in Gas, Oil & Water**
 - **English Language and Technical Writing.**
 - **Technical report writing.**
 - **IELTS preparation intensive courses.**
 - **Cisco (CCNA, CCNP)**
 - **Microsoft certification**
 - **CompTIA**
 - **VMware professional**
 - **Information security management**
 - **It security**
 - **C++**
 - **Drilling Operations, Processes and Equipment**
 - **Welding Processes and Equipment**
 - **Oil and Gas Pipe line System**
 - **Pipefitting Skills**
 - **Oil & Gas Pipeline Welding**

- 
- **Essentials of Corrosion Management.**
 - **Cathodic Protection System in Oil & Gas Exploration Industry**
 - **Water Flooding Management.**
 - **Corrosion Management in Processing Operations**
 - **Mechanical Design and Specification of Piping Systems**
 - **Mechanical Specification of Pressure Vessels and Heat Exchangers**
 - **Fundamentals of Pump and Compressor Systems**
 - **Mechanical Design and Specification of Compressor Systems**
 - **Turbo machinery Monitoring and Problem Analysis**
 - **Process Plant Reliability and Maintenance Strategies**
 - **Risk Based Inspection.**
 - **Instrumentation, Controls and Electrical Systems**
 - **Electrical Engineering Fundamentals**
 - **Instrumentation and Controls Fundamentals**
 - **PLC Technologies**
 - **Valve and Actuator Technologies**
 - **Flow and Level Custody Measurement**
 - **Practical PID Control and Loop Tuning.**

Training Methods

At DISC we use a highly interactive and completely customized approach to classroom based instructor-led training. Our highly qualified Instructors use practical industry examples to deliver their knowledge and experience throughout the training course. We believe that working professionals do not require theoretical training or mere lectures; instead, they learn more when they interact with industry peers and experts. Therefore, we have designed our programs with a focus on transferring the rich experience of trainers along with required theoretical knowledge.

Why choose **DISC**?

- Engaging, interactive and communicative teaching methods.
- Innovative teaching methods and cutting-edge learning technologies.
- Small number of students in class.
- Relevant and timely content delivered by the presenters who are leading professionals in their field.
- Flexible delivery and scheduling options.
- Trainees Support & Professional Development Guidance
- Case Study, Practical Exercises, and Videos.
- We offer to our trainees a total 24/7 service that includes:
 - ✓ Airport reception of our trainees
 - ✓ Execute all processes of residence permits.
 - ✓ Transportation from and to the Airport.
 - ✓ SIM cards for each trainee upon Arrival.
 - ✓ Arranging accommodations.
 - ✓ Social activates to trainees
 - ✓ Helping the trainees in opening bank accounts.
 - ✓ Responding to any emergency that might occur.
